Picky Eaters: How do I get this child to eat?

St. Clement Catholic School

9636-109 Ave., Grande Prairie

Thursday, Jan 19, 2017 6:30-8:00pm

This presentation will help you identify if your child has an eating issue or if his/her pickiness is part of typical development. It will help you understand why he or she may be a resistant eater by looking at factors such as oral-motor, sensory and physical skill development, as well as contributing environmental and behavioral factors. You will leave with some concrete strategies for making mealtime less stressful for everyone!

Presented by Function First Pediatrics. Free for parents and guardians.

Please call the Catholic Education Centre at 780-532-3013 Ext. 503 to register.

The sessions offered through Family Oriented Programming are opportunities for families to increase their knowledge of parenting and early childhood development. We offer a range of sessions that cater to varying interests and assist families with key areas of child development. These sessions help to connect families to local services offered in the community by outside agencies and organizations.
